

Gerri Martin-Flickinger

Senior Vice President and Chief Information Officer
Adobe Systems Incorporated

As senior vice president and chief information officer, Gerri Martin-Flickinger oversees Adobe's global Information Technology team, providing strategic direction and management for the company's IT infrastructure worldwide, including its hosted services. In partnership with the business, Martin-Flickinger also has responsibility for developing innovative enterprise solutions built with Adobe products and technologies that solve business issues and reduce IT costs.

Martin-Flickinger has more than 20 years of experience leading large-scale global IT organizations for companies experiencing explosive growth through acquisition, global expansion and/or implementing new business models. Her expertise includes leading organizations through transformational change, connecting IT to the needs of the business and aligning IT costs.

Before joining Adobe, Martin-Flickinger was CIO of VeriSign, where she oversaw corporate information technology services for the company's 60 offices worldwide. Prior to VeriSign, she served as CIO for Network Associates, Inc. and McAfee Associates, Inc. Before joining McAfee, Martin-Flickinger held several senior systems roles at Chevron Corporation, including serving as process consultant to Chevron's executive staff.

Martin-Flickinger holds a bachelor's degree in computer science from Washington State University.
