

Adobe® Open Options Contractual License Program for Education

A flexible volume licensing program, the Adobe Open Options Education Contractual License Program (CLP) simplifies software administration through a single licensing agreement. By participating in the CLP, you get the benefit of a large-purchase discount, but you have the option to spread your license fees—and thus your expenditures—over the duration of the agreement. Open to schools worldwide, the Education CLP covers most Adobe products and allows you to mix and match products to reach the 1,000-point minimum.

FLEXIBLE VOLUME PURCHASING

To participate in the Education CLP, you simply complete a two-year projection of your software needs. You are eligible to participate in the CLP if your projected needs equal or exceed 1,000 points. Each product is worth either 1 or 2 points. The table on the left lists the point value for each eligible product.*

You receive the same number of points for acquiring a new license for an Adobe product, upgrading an older Adobe product to the latest version, or enrolling a previously licensed Adobe product (latest version only) in the Maintenance program. Within the terms of the agreement, you can schedule your licenses however you choose as long as you accrue 10% of the projected points within 30 days of the agreement's start date and 40% of the projected points within 12 months of the agreement's start date.

Because your discount is based on projected licensed quantities over the term of the agreement, you receive the same discount on all orders—even for quantities as small as one license.

MAINTENANCE OPTIONS

The Maintenance program keeps your software investment current by continuously

upgrading covered products for the duration of your CLP agreement. The cost of enrolling a license in the Maintenance program is prorated to end when the agreement ends, and an annual payment option is available. Enroll any new or upgraded licenses, current-version shrinkwrapped products, and original equipment manufacturer (OEM) licenses in the Maintenance program, and use the points you accrue through Maintenance program enrollment to reach the 1,000-point minimum.

WORLDWIDE AVAILABILITY

The CLP is administered by select Adobe reseller partners known as Adobe License Centers. In the United States, go to any Adobe Authorized Education Reseller for information about the Education CLP. For a volume licensing program that offers maximum flexibility and is effective worldwide, contact an Adobe License Center to take advantage of the Adobe Open Options Education CLP.

To find your nearest Adobe License Center, please visit www.adobe.com.

To find an Adobe Authorized Education Reseller in North America, please visit www.adobe.com/education.

1 POINT PER LICENSE	2 POINTS PER LICENSE
Adobe Acrobat®	Adobe After Effects®
