

Branding Connect Pro Central

Using the customization features on the Administration tab in Connect Pro Central, you can adapt the appearance of Adobe Acrobat Connect Pro to match your organization's brand or identity (**Figure 1**).

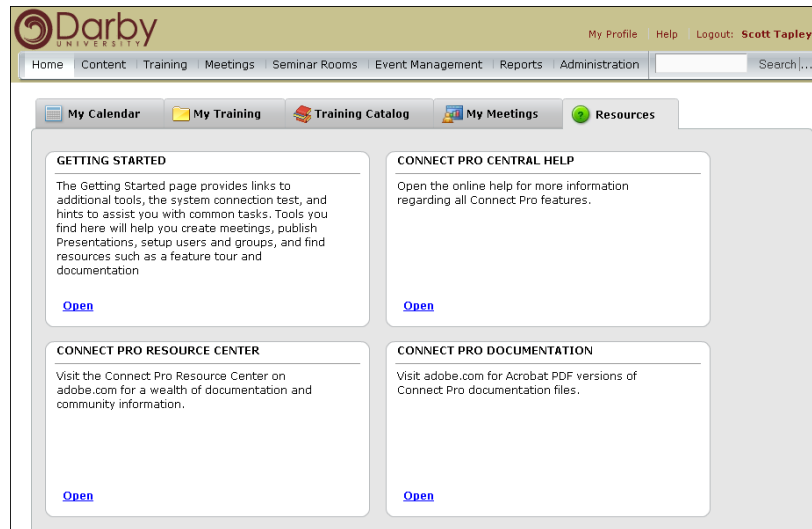

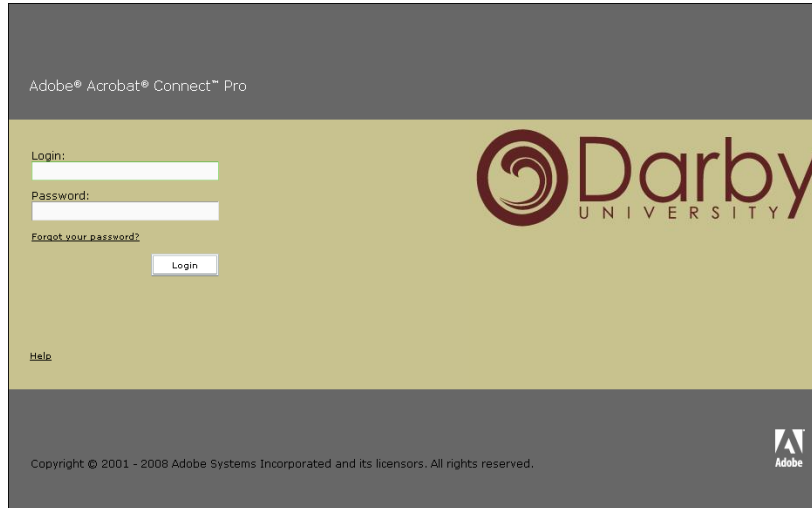

Figure 1 Branded Connect Pro Central Login and Home pages

Customize the Connect Pro Central login page

Use the Customization page on the Administration tab to apply the following login page attributes:

- Meeting title color
- Login text color
- Background color (login area color)
- Main logo image

To customize the login page:

1. Log in to Connect Pro.
2. Click the Administration tab.
3. Click Customization.
4. Click Customize Login.

You can change the color of the meeting title, login text, and background (Figure 2).

5. Click the name of the item you want to change and click a color in the color grid (Figure 3).

To undo your change, click Clear.

6. To select a customized logo for the login page, click Browse below the Main Logo heading (Figure 4), locate your image, and click Open.

Banner images can be JPEG, PNG, GIF, or BMP files and must be 410 x 310 pixels.

7. Click Apply.

You may need to refresh your browser window to see the changes.

8. To reset all colors and the main login logo to the Connect Pro Central defaults, click Reset To Default.
9. Click Yes to confirm your changes.

Customize Connect Pro Central

Use the Customization page on the Administration tab to apply the following branding to Connect Pro Central.

- Background color
- Top links text color (for the My Profile, Help, and Logout links in the upper-right corner)
- Navigation text color (for the links below the tab bar)
- Selection highlight color
- Table header color (for the bars that identify page titles or columns on list pages)
- Banner logo (the image in the upper-left corner of Connect Pro Central)

To customize Connect Pro Central:

1. Log in to Connect Pro.
2. Click the Administration tab.
3. Click Customization.

You can change the color of the background, top links, navigation text, selection highlights, or table header (Figure 5).

4. Click the name of the item you want to change, such as Background, and click a color in the color grid (Figure 6).

If you know the six-character color code, you can also enter that in the field above the color grid.

The color swatch at the top of the grid changes to the color you picked. To undo your change, click Clear.

5. To select a customized banner logo, click Browse below the Banner Logo heading (Figure 7), locate your image, and click Open.

Banner images can be JPEG, PNG, GIF, or BMP files and must be 275 x 50 pixels.

6. Click Apply.

You may need to refresh your browser window to see the changes.

7. To reset all colors and the banner logo to the Connect Pro Central defaults, click Reset To Default.
8. Click Yes to confirm your changes.

Customize the appearance of an Acrobat Connect Pro meeting

You can modify the appearance of Connect Pro meetings. The settings you apply here appear in every meeting created in your organization's account. Use the Customization page on the Administration tab to apply the following attributes:

- Highlight color of the item selected in a primary menu
- Highlight color of the item selected in a secondary menu
- Button rollover color (the color outline that appears around a button when you move the pointer over it)
- Background color
- Title bar color (the color of the pod title)
- Meeting logo (image to use for your organization's meetings)
- Meeting URL (a website to which users are directed when they click the meeting logo)

To customize a Connect Pro meeting:

1. Log in to Connect Pro.
2. Click the Administration tab.
3. Click Customization.
4. Click Customize Meeting.

You can change the color elements in the meeting room window (**Figure 8**).

5. Click the name of the item you want to change and click a color in the color grid (**Figure 9**).

To undo your change, click Clear.

6. To select a customized meeting logo, click Browse below the Meeting Logo heading (**Figure 10**), locate your image, and click Open.

Meeting images can be JPEG, PNG, GIF, or BMP files and must be 50 x 20 pixels.

7. To specify a URL for the meeting logo, enter the URL in the Logo URL text box.
8. Click Apply.

You may need to refresh your browser window to see the changes.

9. To reset all colors and the logo to the Connect Pro Central defaults, click Reset To Default.
