## Adobe Certified Instructor (ACI)

“I have been using Adobe products since 1995. I’ve been an Adobe® Certified Expert (ACE) for the past three years. This year I decided to take the next step and became an Adobe Certified Instructor.”

“When I had the opportunity to be associated with a company like Adobe, I took it. If you train people on these products, and you get certified by the company that produces the products, a lot of clients respect that.”

“The Adobe logo gets a lot of attention. People see it on my business card or website and they say ‘Oh, Adobe. He trains on Adobe.’ They get it.”

“There are a lot of things that I value about being affiliated with Adobe. Most of all, I value the sense of partnership. As a certified instructor, you get support. You get listed on the Adobe website, they do some direct mailings, and the fact that we give back by sponsoring their products all contributes to the system. The relationship is what drives me. It’s great.”
