

ADOBE® ACROBAT® 8 STANDARD

Reliably create, combine, and control PDF documents

Product overview

Adobe® Acrobat® 8 Standard software enables business professionals to reliably create, combine, and control Adobe PDF documents for easy, more secure distribution and collaboration.

Create and share Adobe PDF documents

Easily create Adobe PDF documents

Create Adobe PDF documents with one-button ease from Microsoft Internet Explorer and Microsoft Office applications, including Access, Outlook, and Publisher, and Lotus Notes. Also create Adobe PDF documents from any application that prints.

Scan to PDF with OCR

Scan paper documents with OCR technology to create compact, searchable Adobe PDF documents.

Convert e-mail to Adobe PDF files

Convert e-mail in Microsoft Outlook or Lotus Notes to Adobe PDF documents to facilitate searching, archiving, and retrieval.

Save in Microsoft Word

Save Adobe PDF files as Microsoft Word documents, retaining the layout, fonts, formatting, and tables, to facilitate reuse of content.

Capture web pages

Convert web pages to Adobe PDF documents to easily print, archive, mark up, or share them.

Combine files from multiple applications

Combine and arrange documents

Combine files from multiple applications into a single, polished Adobe PDF document. Arrange files in any order regardless of file type, dimensions, or orientation.

Maintain individual file security settings

Maintain individual digital signatures and security settings in different PDF files and forms when combining them into a single PDF package.

Include only the pages you need

Specify which pages, layouts, or sheets should be included from source files in your final, combined Adobe PDF document.

Optimize Adobe PDF output

Select from multiple file size and quality settings to optimize PDF output for your intended purpose.

Quickly regenerate a combined PDF file

Regenerate a combined Adobe PDF document after any of its source files have been revised, without having to locate and gather the native files again.

Streamline document feedback and reviews

Conduct reviews over e-mail

Initiate a review by distributing the document over e-mail. Merge inbound comments and markups from all reviewers into one PDF document with a single click.

Manage shared reviews

Easily conduct shared reviews—without IT assistance—that allow review participants to see one another's comments and track the status of the review.

Use familiar review and commenting tools

Use familiar commenting tools including a highlighter, sticky notes, pencil, strikethrough, and more. Also attach files from other applications inline as comments.

Track reviews and manage comments

Track which reviewers have contributed feedback. Compile comments into a single PDF document with one-button ease and sort them by author, date, or page.

View and print comments

View and print feedback for easy reconciliation. Sort comments by author, date, or page, or show comments by certain reviewers only. Search comments for words or phrases.

Apply document security and controls

Apply passwords and assign permissions

Restrict access to Adobe PDF documents using 128-bit encryption. Set document permissions to help restrict who can print, save, copy, or modify a document.

Sign documents digitally

Apply digital signatures to authenticate documents, manage their status, and help prevent modification.

Protect attached files

Protect files attached to your Adobe PDF documents with 128-bit encryption.

Create security policies

Create customized combinations of passwords and permissions and save them as security policies that can be easily applied to new Adobe PDF documents.
