

Flash® Media® Encoder 2

Device Compatibility Matrix 10/26/2007

These are the devices that Adobe has specifically tested, but Flash® Media® Encoder 2 is designed to work with any Microsoft DirectShow compliant device or driver.

Please note that this is not a comprehensive list of compatible devices, but one of devices that have been tested in-house. Refer to the Flash® Media® Encoder forum for more compatibility info from the Flash® Media® Encoder community:
