- Archive Lotus Notes e-mail
- Take advantage of a new, intuitive user interface
- Remove hidden information
- Enjoy enhanced OCR capabilities
- Save in Microsoft Word
- Use enhanced review and markup tools
- Archive documents in PDF/A

Adobe Acrobat 8 Standard software enables business professionals to reliably create, combine, and control Adobe PDF documents for easy, more secure distribution and collaboration.

Create and share Adobe PDF documents

Create an Adobe PDF document from Microsoft Office, Outlook, Internet Explorer, or any application that prints. Easily convert and optimize documents, spreadsheets, e-mails, and websites to more secure Adobe PDF files that preserve the formatting and integrity of the original files. Share information with anyone using free Adobe Reader® software.

Combine files from multiple applications

Easily assemble documents, spreadsheets, presentations, e-mails, web pages, and forms into a single Adobe PDF document. Present files in the order you want them, regardless of file type, paper size, or orientation.

Streamline document feedback and reviews

Accelerate feedback and approvals with robust tools for initiating, managing, and tracking document reviews. Reviewers can use familiar commenting tools—including sticky notes, stamps, highlighter, pencil, strikethrough, callout, dimension lines, shapes, and clouds—for review and markup of Adobe PDF files. Merge feedback into a single file to reconcile comments.

Apply document security and controls

Control access to and use of Adobe PDF documents, assign digital rights, and maintain document integrity. Set document permissions to define whether a file can be printed or changed. Apply passwords to help restrict document access. Digitally sign documents to manage their status and help prevent changes. Certify documents to validate they came from a trusted source. Create and reuse document control policies to precisely manage who can print, save, copy, or modify a document.

The top reasons to buy Adobe Acrobat 8 Standard

System requirements

Windows®

- Intel® Pentium® III processor or equivalent
- Microsoft® Windows 2000 with Service Pack 4 or Windows XP Professional, Home Edition, or Tablet PC Edition with Service Pack 2
- Microsoft Internet Explorer 6.0
- 256MB of RAM (512MB recommended)
- 470MB of available hard-disk space; cache for optional installation files (recommended) requires an additional 270MB of available hard-disk space
- 1,024x768 screen resolution
- CD-ROM drive
- Internet or phone connection required for product activation

- Adobe Reader 8

Combine and arrange documents

Combine documents, drawings, and rich media content into a single, polished Adobe PDF document. Arrange source files in any order regardless of file type, dimensions, or orientation.

Easily create Adobe PDF documents

Create Adobe PDF documents with one-button ease from Microsoft Internet Explorer and Microsoft Office applications, including Access, Outlook, and Publisher, as well as Lotus Notes.

Archive papers and e-mails for easy search and retrieval

Scan paper documents with OCR technology to create compact, searchable Adobe PDF documents. Convert Microsoft Outlook and Lotus Notes e-mail archives to Adobe PDF to facilitate search and retrieval.

Save in Microsoft Word

Save Adobe PDF files as Microsoft Word documents, retaining the layout, fonts, formatting, and tables, to facilitate reuse of content.

Sign documents digitally

Apply digital signatures to authenticate documents, manage their status, and help prevent modification.

Apply passwords and assign permissions

Restrict access to Adobe PDF documents using 128-bit encryption. Set document permissions to help restrict who can print, save, copy, or modify a document.

Accelerate document reviews

Send documents for review and track which reviewers have contributed feedback. Compile comments into a single PDF document with one-button ease and sort them by author, date, or page.

Create accessible Adobe PDF documents

Create a tagged Adobe PDF document that helps meet U.S. government accessibility standards (Section 508) by adding tags to the PDF file or converting a Microsoft Office document with accessibility features enabled.

Take advantage of an intuitive user interface

Complete tasks more quickly with a streamlined user interface, customizable toolbars, and a "Getting Started" page to visually direct you to commonly used features.

Create in PDF/A for archiving

Create documents in PDF/A, the ISO standard for long-term archiving of electronic documents.
