Sales & Marketing Content Transfer Process (*How does it get there?*)

Publish Once, Reach Multiple Audiences

Assets published to the Marketing Hub can be reposted to Adobe's Content Library for delivery to field/sales teams via the Readiness portal and to the partner community via APC or SPP.

Only assets created specifically for or approved for use by partners should be published to the Adobe Partner Connection Portal. Please work directly with the asset owner if you have questions about the intended audience of an asset.

Contact the Readiness Support team Readiness-Support@adobe.com with questions.

Asset Transfer from Marketing Hub

Assets flagged for the Readiness portal, Connection Partner Portal and/or the Solution Partner Portal are systematically delivered to the Content Library daily. The Readiness Support team reviews the assets and contacts asset owners and asks them to complete a form, providing required metadata not captured in the Marketing Hub. Once required metadata is gathered, the Readiness Support team releases the assets to the appropriate site(s).

Marketing Hub Asset Publishers

1. When posting to the Marketing Hub, please complete all metadata fields as completely and accurately as possible, since much of this information is displayed to Readiness portal/APC/SPP users.
2. The Readiness Support team will contact the individual(s) listed in the Asset Owner tag to gather additional metadata. Thus, please ensure the appropriate Adobe stakeholders are selected.
3. Determine if the asset is appropriate to publish to the Readiness portal, Connection Partner Portal (APC) and/or the Solution Partner Portal (SPP), per the charts on the previous slides. If so, select "Yes" for the "Publish to Readiness portal", "Publish to Connection Partner Portal" and/or "Publish to Solution Partner Portal" options.
4. Adobe employees only: To accelerate the asset transfer process, you are encouraged to submit the appropriate Review and Release/Asset Transfer form to the Readiness Support team as soon as an asset is uploaded to the Marketing Hub, instead of waiting to be contacted. Go to the [Content Delivery Team SharePoint site](#) (LDAP credentials required for access) to access the required Review and Release/Asset Transfer form and submit it to Readiness-Support@adobe.com.

Sales & Marketing Content Policy Guidelines

- The content and user/audience of assets is what dictates the appropriate storage repository, not the type of asset, per se
- Key questions to ask when determining the asset user and audience:
 - Who is the target audience we are creating the asset for?
 - Who is using the asset to communicate it to the audience?
 - How are they going to use the asset?
- Audience-specific portals/repositories identified are:
 - Marketing Hub
 - Adobe Partner Connection Portal - APC
 - Readiness portal
 - Adobe Solution Partner Portal - SPP

Audience Reference (Who is the asset targeting?)

Delivery Mechanism Used by Audience

	Marketing Hub	APC	Readiness	SPP
Sales	X		X	
Partner Sales Managers (all partner types)		X	X	X
Solution Consultants			X	
Consulting Services			X	
Support			X	
Partners (Channel/Enterprise/Training)		X	X*	
Partners (Solution)			X*	X
Customers		X*	X*	X*
Internal Non-Sales Employees	X			
Adobe.com	X			
Online Store	X			
Adobe TV	TBD			

Target Audience

* For selected asset types ONLY, the end user may receive the asset from an intermediary (ex: sales rep or partner manager) who accesses it via the delivery mechanism listed. The end user does not have direct access to the delivery mechanism.
