

## Adobe Creative Cloud for enterprise

To be successful, companies need content velocity: the ability to create, source, manage and publish content faster than ever. Adobe Creative Cloud for enterprise speeds up creative workflows and unlocks content velocity, empowering your organization to deliver great experiences to every surface.

### Create across desktop, mobile and cloud services

Empower your teams to create anywhere with fast, flexible design workflows. Creative Cloud for enterprise includes desktop apps like Adobe Photoshop CC and Illustrator CC, plus connected mobile apps and essential cloud services that let you start a project on the go and finish it anywhere..

### Easily share assets across your apps and teams

Adobe CreativeSync, a signature technology at the heart of Creative Cloud, puts your files, fonts, images, videos, settings, and other assets right at your fingertips across your desktop, web, and mobile apps. Collaborate across teams, share style guides, folders and creative assets, equipping your teams with modern workflows that are up to 10x faster than without Creative Cloud.

### Accelerate the design process with Stock and Typekit fonts

Access millions of high-quality stock images, graphics, templates, 3D models and videos directly from within your Creative Cloud apps with Adobe Stock, as well as thousands of high-quality fonts for web and desktop design with the Adobe Typekit font service.

### Manage the enterprise and work securely

Your IP and creative content are encrypted both in transit and at rest, ensuring that your data is protected at all times. Deploy software and services using the Adobe Admin Console, and take advantage of the User Sync Tool to synchronize with existing directory systems so user changes are automated and the organization is in complete control of Adobe license entitlements. Plus, onboarding assistance and 24/7 technical support are always just a phone call away.
