

Adobe Systems Appoints Shanmugh Natarajan As Managing Director To Lead India Operations

NEW DELHI — July 21, 2017 — Adobe Systems Incorporated announced that Shanmugh Natarajan has been appointed Managing Director for Adobe Systems in India. Natarajan was formerly Executive Director, and will continue to lead Adobe operations in India, in addition to his ongoing responsibility as Vice President, Engineering, Digital Media at Adobe.

Shanmugh Natarajan joined Adobe in 2008 and has been instrumental in leading product development of award-winning products like Adobe Illustrator, InDesign, Dreamweaver, Flash and Lightroom. His leadership has contributed to the development of many mobile and web products for Adobe Creative Cloud. Adobe operations in India have seen significant growth during his stretch as executive director.

Speaking on the appointment, Donna Morris, Executive Vice President, Customer & Employee Experience, Adobe, said, “Shanmugh Natarajan provides leadership across our teams in India, which contribute to the strength of our employment brand and advancing Adobe’s position as a sought-after place to work. With an employee base that represents virtually every Adobe function, India continues to be a vital component of our growth.”

Speaking on the announcement, Natarajan said, “It is my privilege to take on the role of Managing Director, and lead India operations to greater success. Adobe India is an ecosystem of great talent driven by innovation mindset. All of Adobe’s business units have large teams operating out of India, and we will continue to deliver exemplary products while focusing on customer experiences.”

As Natarajan continues lead to R&D and operations for Adobe India, Kulmeet Bawa, Managing Director, South Asia will continue to lead Adobe’s field operations, further strengthening Adobe’s leadership team in the country.

Natarajan graduated from College of Engineering, Guindy with a bachelor’s in electronics and communication and holds a master’s in computer engineering from The University of Texas at Austin.
