

## PSLT- Adobe Campaign Managed Services (2015v2)

### 1. Customer Customizations

- 1.1 **Staging Instance.** Customer will develop and test every significant Customer Customizations on the Staging Instance only, and if successful, update the Runbook accordingly and include those Customer Customizations in the Production Instance
- 1.2 **Production Instance.** Customer may not make Customer Customizations to the Managed Services in the Production Instance. If Customer desires to make any additional Customer Customizations to the Managed Services, the following will apply:
  - (A) Customer requests that Adobe launch a Staging Instance where Customer may implement and test the desired additional Customer Customizations;
  - (B) Adobe will continue to run simultaneously the Production Instance of the Managed Services ;
  - (C) Once Customer's desired additional Customer Customizations have been tested in the Staging Instance, those additional Customer Customizations may be included in the Production Instance.
- 1.3 **Runbook.** Adobe strongly recommends that Customer provide a complete and accurate Runbook to Adobe, prior to Adobe's operation of the Production Instance. Adobe will not be responsible for any defect, failure or downtime in the Managed Services caused by any of the following: (1) Customer Customizations; (2) Customer's failure to provide a Runbook to Adobe; (3) errors in the Runbook provided to Adobe; or (4) Customer's failure to follow the terms of this section 1 (Customer Customizations).
- 1.4 **Testing.** Customer is solely responsible for all testing of Customer Customizations, including security testing.

2. **Image Video Serving.** Image Video Serving may be used only to serve images or video embedded within an email.
3. **Channel Limitations.** Some Channels may require third-party services to execute on the delivery of communications, and Customer will need to purchase a third-party service to execute that delivery.
4. **IPv4 Addresses.** IPv4 addresses are not assigned to the Staging Instance. Customer may purchase IPv4 addresses to use in the Staging Instance.
5. **Transactional Messaging.** Customer will be charged an annual IT infrastructure fee based on the specified number of Dedicated Servers necessary to support its anticipated transactional email volumes.
6. **Dedicated IT infrastructure and Performance Degradation.** If Customer's licensed dedicated IT infrastructure is insufficient to handle Customer's volume of communications and interactions in connection with the Managed Services, then Adobe will not be responsible for degraded performance or system failures. Adobe may use virtualization technologies at different layers to mimic the concept of dedicated resources. Adobe is not responsible for the non-delivery of email messages that occur due to email address errors, hard bounces, soft bounces, email filters of mail clients, email blacklists, etc. These types of errors can also adversely impact email delivery performance, and Adobe is not liable for degradation caused by such errors.
7. **Data Retention.** If Customer exceeds its SFTP account storage quota, Adobe may remove those data files that exceed the storage quota and that are older than 15 days without prior notice to Customer.

### 8. Compliance with Applicable Rules

- 8.1 Customer agrees to comply with all Applicable Rules and the following in connection with the use of the Managed Services:
  - (A) Customer will provide Recipients with the means to unsubscribe and therefore no longer receive commercial email communications.
  - (B) Customer will refrain from sending unsolicited email communications.
  - (C) Customer will populate the "From" and "Subject" fields of the email communications with true, accurate and unambiguous information.

(D) If Customer is not working with Adobe through a sub-domain delegation, then Customer will use reliable authentication techniques (e.g., SPF/senderID, DK/DKIM) for the domain names used to send email communications.

8.2 Customer is solely responsible for obtaining any necessary clearances, consents and approvals from end users under Applicable Rules for any data gathered through the Managed Services. For example, if Customer utilizes the SMS Channel, Customer is responsible for complying with Applicable Rules (such as the Mobile Marketing Association Code of Conduct, where applicable). Customer is solely responsible to comply with all Applicable Rules. Adobe is only acting as a “data processor” or a “data intermediary” on behalf of Customer, and Customer is the “data controller” or equivalent under applicable privacy and data protection laws (including EU Directive 95/46 if Customer is a resident of the EU).

**9. Upgrades or Updates to Adobe Campaign Managed Services.** Adobe will provide Customer with access to generally available upgrades and enhancements to the enabled features of the Managed Services without additional fees. With some new releases or upgrades to the enabled features of the Managed Services, including changes to the Adobe Campaign platform, and some upgrades to the enabled features of the Managed Services, Customer may need to purchase consulting services or professional services if it chooses to migrate its prior Customer Customizations to the new release or upgrade.

## **10. Definitions.**

10.1 **“Applicable Rules”** means all applicable laws, guidelines, regulations, codes and rules.

10.2 **“Customer Customizations”** means the customizations made to the Managed Services by Customer. Customer Customizations do not constitute Indemnified Technology.

10.3 **“Instance”** means the entirety of the binaries of Adobe Campaign software combined to implement a unique Adobe Campaign database. This unique entity is characterized by a group of parameter settings defined in a parameter definition table (table xtk\_entity). An Instance may be either Production or Staging.

10.4 **“Production Instance”** means an Instance intended for the operation of the Managed Service and technology with a view to contributing to Customer’s economic activity.

10.5 **“Runbook”** means a defined set of Customer-specific procedures that Adobe uses to manage Customer’s highly customized deployment. For example, the Runbook lists Customer Customizations along with operational instructions.

10.6 **“Staging Instance(s)”** means an Instance intended for operation of the Managed Services for the purposes of non-production development, testing, and evaluation. The Staging Instance generally runs on a single application server without redundancy, and does not have the same computing, storage, and networking capacity as the Production Instance.
