What you see is what gets printed

POWERED BY
Adobe Embedded Print Engine

Printers with **Adobe Embedded Print Engine** ensure accurate printing from desktop, mobile devices and cloud services. Print with confidence from Word, Excel, PowerPoint, Adobe Acrobat, InDesign, Illustrator, Photoshop, web browsers, and more. Based on the same core technology built into Adobe's creative applications and Adobe Acrobat DC, it delivers faster and superior quality prints.

Seen on-screen, accurately reproduced on paper.

Superior PDF rendering and color handling deliver accurate prints that match what you see on desktop and mobile.

The power to print from anywhere, error-free.

Easily print from desktop, mobile, and the cloud. Adobe Embedded Print Engine efficiently handles a wide range of documents such as Word, PowerPoint, Excel, PDF, and web pages in an error-free way, ensuring what you see on-screen is printed perfectly on paper.

Powering printers of every size.

Adobe Embedded Print Engine enables powerful capabilities like native PDF rendering and parallel handling of jobs/pages across a wide spectrum of print devices, from small office/home office (SOHO) printers to enterprise multifunction printers (MFPs). Ensuring you get next-gen performance at every level.
