

What's new in Adobe Connect?

Adding more power to the real virtual.

Engagement got a boost

Improved Breakouts

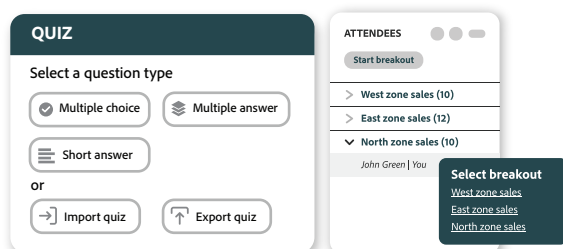

Participants can choose their preferred Breakout rooms and join with both VOIP and phone for audio. Closed captions are enabled in Breakout rooms.

Native quiz pods

New native Quiz pods with bulk import/export, new question types, assessments, and gamification.

Recordings made more engaging

Automated transcripts with speaker diarization, time stamps, and interactive navigability, viewing, and editing capabilities are now available in recordings.

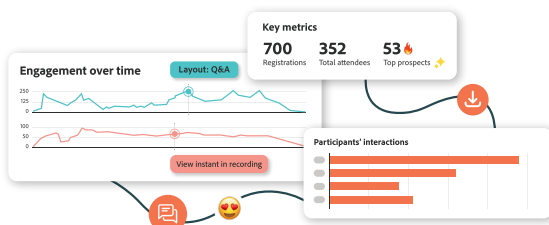

Insights turned into actions

New Event Analytics dashboard

Identify and target high-intent prospects with an advanced engagement scoring algorithm for improved webinar conversions.

Track interactions and generate detailed individual and session reports on the new dashboard.

Enhance the value of your future sessions with data-driven insights on engagement metrics in the previous sessions.

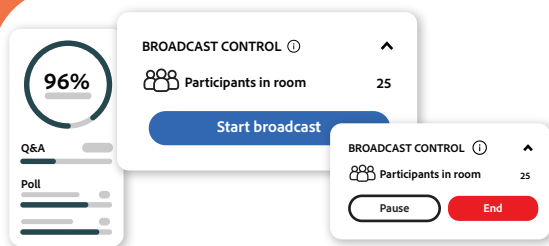

Backstage got more power

New Broadcast control

Discrete backstage collaboration continues until the presenters are ready to take the session live.

Live Engagement tracking

Presenters are now empowered with improved live engagement tracking option as the session unfolds.

Experiences made modern

New Intuitive User Interface

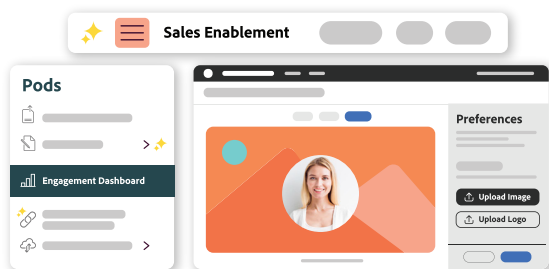

Spend more time on delivering results and less time getting started. Seamlessly navigate controls using a reorganized menu, focusing on accessibility and discoverability of most-used features. Experience a simplified login and exit.

Refreshed home page and templates

Get a 360° view into your trainings, events, and calendar. Create stunning event pages and emails with modern, responsive, and customizable templates.

Custom logos, backgrounds, and lobby screens

Upload custom logos and virtual backgrounds, create customized entry, exit, and waiting screens easily.

Evolution journey

2024
