

ADOBE ACROBAT SIGN FOR GOVERNMENT

Announcing FedRAMP Moderate authorization

Introducing Adobe Acrobat Sign for Government. If your security posture requires FedRAMP Moderate practices, Adobe has introduced Adobe Acrobat Sign for Government. Now you can achieve modernization via dynamic digital application and approval processes that accelerate service delivery while also driving greater collaboration, transparency, and compliance.

- Adobe's cloud-based solutions help your agency cut costs, empower employees, scale to meet requirements, and deliver innovation promptly to the public.
- Safely gather electronic signatures from any device anywhere and comply with a FedRAMP Moderate security posture. Adobe is Microsoft's preferred e-signature vendor, with integrations prebuilt with Microsoft 365 FedRAMP Moderate Word, PowerPoint, Outlook, and Teams, hosted on Microsoft Azure.
- Automate more document processes and encrypt with a tamper-proof seal preserving the signature authentication. Adobe Acrobat Sign for Government has 325 security controls verified by a third-party auditor to ensure continued security.

The image shows a digital form titled "REQUEST FOR OFFICIAL RECORD" from the "RECORDS DEPARTMENT". The form includes fields for "Name of Requester", "Address", "Phone", "Email", "State of", and "County of". It also has a "Date Requested" field and a "Request Submitted by" section with checkboxes for "Email", "Postal", "Mail", and "In Person". A signature overlay shows the name "Phillip Mancuso" in a cursive font, with "Cancel" and "Apply" buttons below it. The form is identified as "Form 658301-22".
